Summary

Data analytics and artificial intelligence (AI) engineer with a **Master of Science in Data Analytics Engineering** from George Mason University (GMU), Fairfax, USA. Experienced in multi-agent systems, sales intelligence, computer vision, and backend development.

Experience

Artificial Intelligence (AI) Developer, Strong Point January 2026 – October 2026

- Developed multi-agent chatbots and repository-scale code conversion pipelines.
- Integrated GitHub and Model Context Protocol (MCP) capabilities with repositories and external tools.
- Enhanced data analysis and multi-stage workflows to improve usability and user experience.

Artificial Intelligence and Machine Learning (AI/ML) Engineer Intern, Giggso Incorporated March 2026 – September 2026

- Contributed to Accsell sales intelligence workflows for customer and prospect analysis.
- Supported Ideal Customer Profile (ICP) and Ideal Vendor Profile (IVP) validation for sales intelligence.
- Integrated Representational State Transfer Application Programming Interfaces (REST APIs) with machine learning workflows.

Graduate Data Analytics Engineering Capstone — Developer, IMAGE DETECTIVES August 2025 – December 2025

- Developed an interactive dashboard to evaluate drone-based object detection and tracking without ground-truth labels, using four benchmark datasets and automated preprocessing and exploratory data analysis (EDA).
- Tuned You Only Look Once version 8 (YOLOv8) models and integrated Norfair tracking to maintain object identity.
- Developed spatial and temporal proxy metrics and a composite meta-score; automated streaming evaluation and contributed to a dashboard comparing temporal-window stability.

Research Assistant, GeoWeaver — George Mason University, USA February 2024 – June 2024

- Automated scientific workflows in Python and JavaScript with Professor Ziheng Sun.
- Improved the user interface and user experience (UI/UX), debugged workflows, and integrated geospatial pipelines.

Associate Software Engineer, Mphasis Limited April 2023 – December 2023

- Built Spring Boot and Hibernate backend services and tested them with Selenium for a Fortune 500 client.

Project Engineer, Wipro Technologies May 2022 – January 2023

- Used Java and Structured Query Language (SQL) on the Nokia project; developed an online Video Compact Disc (VCD) system with Java 2 Platform, Enterprise Edition (J2EE).

Apprentice, EPAM Systems September 2020 – July 2021

- Completed the Pre-Education Program in object-oriented programming, Core Java, and software design patterns.

Education

Master of Science (M.S.) in Data Analytics Engineering, George Mason University, Fairfax, Virginia, USA January 2024 – December 2025

Grade Point Average (GPA): 3.83 / 4.0

Bachelor of Technology (B.Tech.) in Computer Science and Engineering, CVR College of Engineering, Hyderabad, India August 2018 – May 2022

Grade Point Average (GPA): 8.2 / 10

Projects & Achievements

- Science & Computing Library: Built a public study platform with 5,400 questions and answers across 54 collections.
- GitHub: 31 public repositories, including chatbots, churn prediction, rainfall dashboards, and bridge analytics.
- Won first place in the Challenge X Hackathon for IntegrityX, a financial document integrity platform.

Skills

Languages: Python, Java, C, R, JavaScript, Structured Query Language (SQL)
Data: Machine learning, data analytics, Microsoft Power Business Intelligence (Power BI), Tableau
Engineering: Spring Boot, Hibernate, React, Hypertext Markup Language (HTML), Cascading Style Sheets (CSS), Amazon Web Services (AWS), Selenium

Certifications & Credentials

Amazon Web Services (AWS) Certified Generative Artificial Intelligence (AI) Developer - Professional (2026)
Oracle Artificial Intelligence (AI) Vector Search Certified Professional (2026)
Association of Data Scientists (ADaSci) Certified Forward Deployed Engineer (FDE) (2026)
